EXPERIENCE

Software Engineering Intern

June 2026 – Present

FanDuel

- Engineered an internal deployment platform using serverless AWS architecture, enabling non-technical employees to turn frontend projects into live deployments from a single upload
- Owned end-to-end CI/CD pipeline in Buildkite, eliminating manual updates through automated provisioning
- Automated the CodeBuild pipeline to upload Claude and Lovable projects as live sites across 200+ deployments
- Crafted the frontend in React and TypeScript with TailwindCSS and Glassmorphism styling

AI Software Engineer

April 2026 – Present

Handshake AI Projects (Contract)

- Refactored AI-generated code weekly across 50+ open-source projects in Python and Java to exceed standards
- Identified and resolved defects in LLM-generated solutions before deployment, optimizing AI model reliability

Outreach Chair

Dec 2025 – Present

PROGSU - Programming Club @ GSU

- Secured \$19k sponsorships, coordinated 60+ judges for Hacklanta at PROGSU, Atlanta's largest student CS org
- Created end to end outreach process and CRM tracking for 10+ tech company relationships across all initiatives

Co-Founder

Sep 2025 – March 2026

QuantDFS – Sports Analytics Platform

- Trained ML models on 25+ years of NBA data for statistical predictions and fantasy lineup optimization
- Built frontend in React and TypeScript with AWS deployments, reaching 30 active users in one month

Software Developer

June 2025 – July 2025

The Paulk Clinic

- Modernized WordPress clinic site, driving 2.5x impressions and 2.75x conversions in 3 months via Google Analytics
- Partnered directly with clinic stakeholders to translate business objectives into technical requirements

EDUCATION

Georgia State University

GPA 3.5 Atlanta, GA

Master of Science in Computer Science

Jan 2026 - Dec 2026

Bachelor of Science in Computer Science

Aug 2022 - Dec 2025

Leadership: Co-Founder PROGSU(**1200+ Members**), President IEEE GSU chapter, President Barbell Club, Grad TA

TECHNICAL SKILLS

Languages: Python, SQL, TypeScript, JavaScript, Java, HTML, CSS

Frameworks: React, FastAPI, NodeJS, TailwindCSS, React Native, Express, XGBoost, PyTorch

Tools: AWS, Terraform, Git, Docker, Buildkite, CI/CD, PostgreSQL, GCS, Supabase, Datadg

AWARDS

VoiceVitals: 1st Emory Hacks | *Python, TypeScript, React, PyTorch, FastAPI, GCS, Firebase*

Nov 2025

- Deployed a scalable SaaS on Google Cloud with a React/TypeScript dashboard and ML pipeline for early dementia detection from voice recordings, researching 153 vocal features to improve model confidence from .2 to .68
